Welcome

to wellbeing with Lifeplus.

Your body is an extraordinary machine, and our nutritional supplements are designed to support its ongoing wellness, no matter what life brings. We're delighted that you've chosen to explore our products.

"At Lifeplus, we design and manufacture nutritional supplements **to the highest standards of quality.** It's in our DNA."

Robert Christian,
CEO

Why Lifeplus?

Legacy of Wellness Leadership. With a rich history spanning more than 35 years, Lifeplus has earned a reputation for excellence in creating supplements that blend science, nature, and care.

Excellence in Manufacturing

"At Lifeplus, manufacturing isn't just a process—it's a commitment. Our state-of-the-art methods preserve the integrity of natural ingredients for exceptional results."

The Lifeplus Formula

"Our holistic approach to wellness emphasises four pillars: Eating Well, Staying Active, State of Mind, and Nutritional Supplementation—empowering small steps toward big changes."

Exclusive PhytoZyme® Base

"Many of our products feature our proprietary PhytoZyme® base, a blend of over 30 plant extracts and enzymes designed to complement a balanced lifestyle."

Eco-Conscious Practices

"We're committed to sustainability – from using recyclable packaging to supporting marine conservation and embedding eco-friendly practices throughout our operations."

30-Day Money-Back Guarantee

"We stand behind every product with a 30-day money-back guarantee, ensuring you can explore wellness with confidence."

Feel good live well!

At Lifeplus, we're all about helping you feel good and live well. We aim to positively impact your wellness journey with thoughtfully designed solutions: our products are crafted to offer support and opportunities for a happy lifestyle. Wellness is our passion, and we want to share it with the world.

Wellbeing in our DNA

Wellbeing is woven into our DNA at Lifeplus. With over 35 years of expertise, we've combined innovation and care to create high-quality supplements to support balanced, healthy lifestyles. Our exclusive PhytoZyme® base and sustainable practices highlight our dedication to both people and the planet. From thoughtful manufacturing to empowering wellness journeys worldwide, Lifeplus is more than a brand—it's a legacy built on helping others thrive, reflecting our belief that everyone deserves to feel their best.

A formula for wellness

Navigating health advice can be overwhelming. That's why we've simplified it with our Lifeplus Formula: Eating Well, Staying Active, State of Mind, and Nutritional Supplementation. Small adjustments in these areas can significantly contribute to your overall wellbeing. Our supplements are designed to support your diet where essential vitamins, minerals and enzymes might be missing. If you're looking for inspiration, explore the wellness centre on [Lifeplus.com](https://www.lifeplus.com), where you'll discover a wealth of information, including recipes, to support your journey to wellness.

Timeless excellence

With the legacy of our founders, our products have stood the test of time as well as evolving into something exceptional. Helped by experts in nutritional science and holistic medicine who work to create formulations that align naturally with your body's natural processes.

The magic of our products

- Lifeplus products are only available directly from us, allowing us to tailor our offerings to meet your needs.
- Crafted with a focus on harmony - creating blends designed to offer noticeable benefits.
- Every ingredient selected to work synergistically.
- Commitment to quality means many of our products are manufactured in-house.
- Rigorous scientific processes used to ensure exceptional quality.

Supporting your wellness

A varied diet is important for overall health. Our supplements are designed to support your nutrition, where needed, with premium, natural ingredients. Our personal care line aims to enhance your skin and beauty, while our advanced sports range is designed to support your active lifestyle.

Quality you can rely on

At Lifeplus, our commitment to quality is steadfast. We collaborate with industry experts to ensure our products adhere to exacting standards. From selecting the finest ingredients to maintaining meticulous manufacturing processes, every product features traceable ingredients and undergoes thorough testing to guarantee a superior quality.

The secret sauce of manufacturing

We're proud of our excellent manufacturing practices. Most of our products are created in Batesville, AR (USA), where we maintain tight control over the entire process. Our cold processing method helps preserve nutrient integrity by avoiding heat. A number of products are formulated with our exclusive PhytoZyme® base – a natural binder made from over 30 plant extracts, phytonutrients, and plant enzymes. Regardless of PhytoZyme® use, our rigorous processes ensure every product meets our high standards of quality and efficacy.

Healthy planet, healthy you

We believe that keeping our planet healthy is as important as keeping you healthy.

Here's how we're making a positive impact:

- **Recyclable Packaging:** For all of our in-house packaged products, we use packaging that is designed to be environmentally friendly and fully recyclable.
- **Cruelty-Free Practices:** We never test on animals.
- **Eco-Friendly Initiatives:** Programmes to reduce our environmental footprint.
- **Marine Conservation:** Omega-oil products certified by Friend of the Sea, reflecting our commitment to marine conservation.

Our commitment extends to the wellbeing of our planet as well.

Everything we do, we do for you

We offer a 30-day money back guarantee on all our products. For returns, cancellations, or any queries about Lifeplus, our friendly customer care team is ready to assist you.

Proanthenols®

Support your body in protecting itself from oxidative stress!*

Proanthenols - one of Lifeplus' most successful products and a consistent favourite for countless customers over the years.

A high quality formulation based upon 50 years of research.

The Oligomeric ProanthoCyanidins (OPCs) within Lifeplus Proanthenols products contain Real OPCs. Based on the discovery by Dr. Jack Masquelier, Professor from the University of Bordeaux in Southern France, the OPCs are extracted from grape seeds and pine bark by Berkem Laboratories (regarded as the most knowledgeable and experienced company in the world to produce high quality OPC extracts).

*Vitamin C contributes to the protection of cells from oxidative stress.

Professor Jack Masquelier was the first to isolate a unique, powerful plant extract (Oligomeric ProanthoCyanidins - OPCs) in 1948. He spent his entire scientific career developing, perfecting and researching his unique OPC products.

Lifeplus products contain the purest, most consistently reliable Real OPC available. The Real OPCs in Proanthenols are 100% bioavailable and residue-free.

This synergistic formula also includes Vitamin C which contributes to the protection of cells from oxidative stress.

What's different about Proanthenols SV?

A sensitive and vegan alternative to Lifeplus Proanthenols! We've removed our typical Phytozyme® base and added a number of nutrient-dense ingredients, including Pomegranate extract, Nettle Leaf, Blueberry and Watercress powder, to support those with food sensitivities. Proanthenols 200 SV comes in a vegan-friendly capsule!

Vitamins D&K

An expert combination of two important vitamins!

Vitamins D&K represents an innovative formulation, combining two key vitamins in one tablet. Vitamin D – sometimes known as the “sunshine vitamin” – plays an important role in the body, contributing to the maintenance of normal muscle function, as well as to the normal function of the immune system.

Vitamins D and K both also contribute to normal maintenance of bones. Vitamin D contributes to normal blood calcium levels and to the normal absorption and utilisation of calcium, whilst Vitamin K contributes to normal blood clotting.

It's a winning partnership, all in one tablet!

Vita-Saurus

Specifically formulated with children in mind

As children grow and develop, it's important that they eat a balanced diet. Of course, this is often easier said than done.

That's why Lifeplus created Vita-Saurus, a multivitamin formulated specifically to supplement your child's diet.

Vita-Saurus includes essential nutrients such as:

- Vitamin D which contributes to the normal function of the immune system and is needed for normal growth and development of bones in children.
- Iodine which contributes to the normal growth of children.

These chewable tablets are easy to take and taste great too.

Product 4097 120 Lozenges

Zinc Boost

Try our great-tasting Zinc and Manuka honey lozenges for your immune system.*

When our immune system is in good condition, we often don't notice it working away to help support wellbeing. It's sometimes only when something is wrong that we prioritise our immune system by consuming the right immune-supporting nutrition (often during the colder times of the year).

Zinc is one of those vital minerals that helps the body in many ways. More than 300 enzymes in the body, and many more proteins, require zinc in order to function normally.** As an essential trace element for human nutrition, Zinc contributes to the normal function of the immune system.

*Zinc contributes to the normal function of the immune system.

**Zinc contributes to normal protein synthesis and to normal macronutrient absorption.

MSM Plus Vital Care Lotion

Take care and restore with our skin-softening lotion

When it comes to our skin, it needs a little tender loving care. Caring for your skin should be like any other aspect of health and wellness – part of your routine. When skin is feeling dry and unhealthy, or needs cooling from sun exposure, it's important to feed your skin with the vital nutrients.

A common ingredient often included in skin care formulations is Methylsulfonylmethane (MSM) – a naturally occurring sulphur which plays a role in many of the body's processes. Found in several different natural sources including the human body, MSM offers an ideal way to maintain healthy skin, as often we don't realise the effects our daily living can have on the condition of our skin.

Natural Gold Hand & Body Bar

Our Natural Gold Hand & Body Bar is formulated with all natural ingredients and a 100% vegan base. With a wonderful citrus scent, our soap bar contains moisturising shea butter and RSPO certified sustainable palm oil to help clean, hydrate and nourish your skin, leaving it feeling soft and healthy all day.

Its inclusion of shea butter alone brings a rich blend of fatty acids and antioxidants, such as vitamins A and E, which work wonders on your skin. While vitamin E contributes to the maintenance of normal skin, vitamin A contributes to the regeneration of the reduced form of vitamin E, working together to help preserve your skin's natural moisture balance.

Cleansing, moisturising and hydrating – use Natural Gold Hand & Body Bar today to nourish your skin as you cleanse, leaving you and your skin feeling balanced and renewed!
